

What is the course about and what are the entry requirements?

This course forms part of the Level 2 academic pathway.

What subjects will I study?

Environmental Management is the study of issues concerning sustainable development and how Earth's resources are used. It covers areas of direct relevance on the Isle of Man through Biology, Earth science, Geography, Economics and Demographics. It considers how people use natural resources and examines the impact of development on the environment including environmental pollution and the depletion of resources. The course explores how we can try to ensure that future developments are more sustainable.

Topics covered include:

Agriculture, Water, Oceans and fisheries, Rocks and minerals, Energy, Natural ecosystems and human activities.

How will I be assessed?

Two examinations at the end of the course:

Paper 1 Theory (1 hour 45 mins) worth 50%

Paper 2 Management in context (1 hour 45 mins) worth 50%

What are my progression and career options?

Successful completion with satisfactory attendance allows progression to Level 3 study, an apprenticeship or vocational courses. Alternatively, you could seek employment and explore UCM's part-time prospectus for a relevant qualification in your new career.

Who should I contact?

If you would like more information or an informal chat about this course please contact the Programme Area Secretary on 648203 or email applications@ucm.ac.im
