**Wednesday 3 July:** **Virtual work experience with Get Into Teaching**

Turn your passion into your profession. Teaching as a career choice for students is unique as it is one of the few professions that they see every day throughout their education.
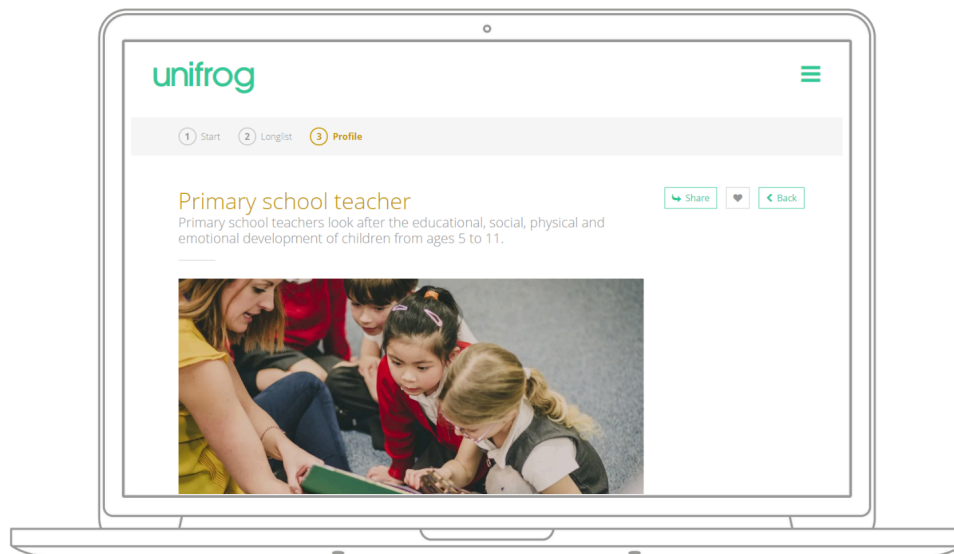

**What you'll get out of it:**

🍎 Take a deep dive into the teaching profession.
🍎 Explore the different tasks that teachers deliver and skills they develop throughout their career.
🍎 Showcase how varied and rewarding a career in teaching can be.

**Who it's for:**

Join us for this live virtual work experience if you're passionate about education, eager to make a difference to the lives of students, and you're looking for a career with a competitive salary and good progression opportunities.

**Useful preparation:**

Take a look at the career profiles for a **primary school teacher** and a **secondary school teacher**. These will give you insights into what the job is like, the skills you need, and possible career paths.

## Virtual work experience FAQs

### What is the format of the day?

At 9am, Get Into Teaching will host a webinar to welcome you to the day and introduce the virtual work experience task they've designed for you.

After the webinar, you'll have time to complete and submit your virtual work experience task, giving you a real taste of the workplace.

At 2pm, Get Into Teaching will host a second webinar to round off the day.

### How do I join the work experience day?

You'll complete this virtual work experience day through our **Courses tool**. On Wednesday 3 July, you'll be able to join the course, where you'll find the webinar links and workplace tasks.

The day before the event we'll send you an email reminder with the link to the Course.

### In the webinars, will I need to appear on camera or talk on the mic?

No. You won't appear on camera or talk on the mic, but there might be an opportunity to ask questions through a typed Q&A.

### What do I need to take part in the day?

You'll need computer and internet access to watch the webinars. You might do this individually (e.g. with a computer and headphones) or in a group setting (e.g. in a classroom with other students).

You'll also need computer and internet access to complete and submit your virtual work experience tasks.
